Application No. 10/788,628

REMARKS

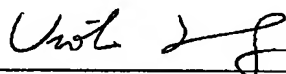

Claim 1 is amended to recite that the polymer or oligomer of (i) is grafted onto the graftable polymer of (ii), to clarify the meaning of the claim. Supported for the amendment can be found, for example, in Examples 11 and 12, which describe that a top sealing composition comprising a polymer or oligomer of (i) and a radically or photochemically graftable polymer of (ii). A skilled person in the art would understand that when (i) is mixed with (ii), (i) will be grafted onto (ii).

CONCLUSION

Applicants believe that the application is in good and proper condition for allowance. Early notification of allowance is earnestly solicited.

Respectfully submitted,
